## MINING ACROSS THE RIVER

## INC'S AT FAIRVIEW AND ROSICLAIRE.

## D CENTER FURNACE

Trigg County Is to Be Reopened After Forty Years of Idleness.

Marion and Fairview Mines on the river are each putting out very tonnage. The famous Roane owned by J. H. McLean of Cincinnati Inquirer has been running more than forty years and under management of Captain Thomas contains its normal output. That may have some idea of the amount of ore in a good flume vein may be well to note that while property has been operated for more than forty years the working today is not more than 30 feet and to this depth the ore has been taken out and removed from an acre tract of land. At present depth of the shaft is between 20 and 30 feet wide. Fairview can be seen one of the latest and most modern mining to be found in the Western Kentucky-Southern Illinois district. Fairview mines are operated by the Fairview Flume Spar Company for concentrating plant which first installed and thought to be enough to handle the output of the shaft has had to take on adhesives and is now unable to handle ore of daily, and to one day hours the shaft has been to yield 217 tons of ore. Coal does not constitute the product of mine. The spar is divided into grades, grades number 2 and shipped as they appear after the product has passed over the eye belts from which No. 1 and Lump consisting lead have removed in the passage over conveyor belts, by trained labor line up on either side of the the load which amounts to 2 carloads to the hauler and separate the jigs and the number one to ground floor at flour and lumber shipment. From three to 5 loads of product is shipped.

The company owns a transfer boat that runs from Fairview to the Central Justice at distance of about twelve miles. The transfer boat handles ore at a time. At present the product is loaded on the railroads from the mine cars which run out to the landing by means of a railway. But this system of will soon be displaced and instead cars will be loaded directly on a spar tipple. The company will purchase a standard gauge track to handle the cars on its line. The bed for the road to the mine to the river lands already been graded. The complete will cost about \$15,000. At these mines is a doublet and follows the vein fissure outlined about 8 degrees, sufficient to hold the product and ear tracks against the section in which the ore buckets are lowered. When the line is raised to the top it is automatically dumped into the ore bin which it carried into a crusher on the conveyor belt to a slot.

means of a large dynamo the plant and underground work done by electricity the globe protected by wire shields. A company has also laid out a mining town and is having the buildings constructed of cement. Several concrete residences already been completed. The dynamo at the mining plant also light the town.

Ky., May 20—White, Dixon, who recently leased Old Furnace, in the extreme western of this county, between the Ohio and Tennessee rivers,

have put about one hundred hands to work cleaning up the old furnace, cutting cord wood, and building houses for furnace hands to occupy. This work will be pushed rapidly, and the promoters hope to have the furnace in operation by the middle of October.

This old furnace was operated some forty years ago by Daniel Hillman, and the iron that was made by it was considered the best in the country, and the new promoters hope to regain the old reputation of Center Furnace."

Total 9 cars 510,425

## ELDER CHILDERS

### Will Preach at Christian Church Sunday—Synopsis of Sermon Last Sunday.

Elder E. H. Childers of Troy, Missouri, preached Sunday morning and evening at the Christian church. He has a very interesting and pleasant delivery and handles his subjects very logically. He will preach again next Lord's day on an interesting subject and will likely have a large congregation to hear him.

A brief synopsis of the two sermons preached last Sunday follows:

Subject:—"The Temptation of Christ." Matt. 4:1-11.

First Lesson:—The danger of disbelief. I may not understand all I read in the word of God, but I will believe it.

Second Lesson:—It teaches us how to resist temptation ourselves. Putting on the whole armor of God (Eph. 6:10-19) and taking the sword of the Spirit—the word—we do battle for the Lord and Master. But who is the devil and Satan? A fallen angel called Lucifer, the son of the morning.

The subject in the evening was "Christ and Him Crucified," 1 Cor. 2:2-24. The wisdom of God and the power of God to the salvation of both Jews and Gentiles. The wisdom of God because by revelation it supplies all the wants of this three-fold being called man—his intellectual wants of his origin, his duties and his responsibilities—of Christ, his friend, altogether lovely—and of his spiritual wants in giving him a spiritual and immortal body, like the glorified body of his Lord.

There is reason to believe that the election of Prof. Dudley will meet with universal satisfaction in the community, and it is especially complimentary to him that he should have been chosen over twenty-three other applicants.

Notwithstanding the wish of many of his friends that he remain here, former Principal thus Evans goes to Ashmore, I. T., where he will be superintendent of city schools.

Prof. Brinson, who instructed the eighth grade last year, goes to Smithland and becomes principal of the graded schools there. Miss Maggie Moore was chosen to teach the eighth grade, and Miss Sadie Rankin, of this city, and Miss Florence Harris, of Corydon, were selected for the third and fourth grades. The remainder of the places will be filled as last year.

The Marion Graded School board met Wednesday, May 30th, and unanimously elected C. E. Dudley, of Pembroke, as principal of Marion Graded Schools. Prof. Dudley comes well recommended by prominent educators in different parts of the State, and was also recommended by Rev. J. H. McAfee, of this city, and Rev. H. V. Joiner, of Hinsdale, Ill.

The above is about the story as related to me by Mrs. Oliver, and even next morning she seemed very much excited over the familiar manner and late visit of this man Childs, who travels this territory for Swift & Company, one of the largest steel trust concerns in the country.

No matter who is taking this disreputable scheme, it should raise the ire of every country and the man who was to profit by this midnight visit ought to suffer political punishment.

J. W. Oliver is in the race for Senator in this district to finish and his opposition know they have a fighter worthy of their steel. He refuses absolutely to be made a tool of or a party to any such midnight bribery and desires the people to know of this most dastardly insult and place their disapproval upon the method and the man, as well as those sending the offer and the candidate in whose interest the disreputable graft was conceived. Childs left on the midnight train Wednesday night and has not been heard of since. He claimed to represent Mr. Milton Ward, of Hopkinsville, Ky., whom he said had sent him to make terms with Mr. Oliver and get him off the Senatorial tract in the interest of Conn Linn, of Murray.

The Beef Trust generally employ pretty smooth citizens and Mr. Childs no exception to their rule.—Lyon County Times.

At the recent examination for applicants to teach, which was evidently considered a very hard examination, there were thirteen failures out of 33 applicants. There were three first class certificates made, twenty-one second class as follows:

First Class, Amron Vick, Ethel Hard, Lina Roberts.

Second Class, Elizabeth Johnson, R. L. Webb, W. M. Ward, Mable Minor, A. H. Brown, Gottett Stephens, Ethel Terry, Fred Ford, Mamie Henry, Connie Davis, Jennie Clement, Myrtle Quarry, John Barnes, Carrie Oliver, Nellie Boston, Harvey Webb, Armeda Cannon, Sylvia Travis, Clara Carter, H. E. Minner, Nora Hard.

Third Class, H. G. Ross, Alfred Martin.

joists. Contractors Boston & Paris are having the work done and they have a good crew of carpenters and brick men. The Hayward store building corners on Main and Bank streets. The front being red pressed brick with plate glass windows. From the Bank street side of the building, select Henderson brick is being used which is laid in white mortar, as is also being done on the L. H. James office building.

Mundo and McGraw, contractors from Henderson, broke ground and began work on the Marion Bank building and the postoffice building this week. They will execute the work rapidly on these buildings as they have but 60 days in which to complete the postoffice building and 75 days on the Marion bank.

Adam and Phoebe are moving into their new machine shop and with other buildings going up in the vicinity, Bank street begins to look industrious.

County Clerk C. E. Welton will begin work on a brick residence next week. The brick to be used are the first turned out by Taylor & Hurley at their brick yards near the city.

Joe H. Orme has just finished adding two new rooms to his cottage on Belleville street, and the inside finish has added to some of the rooms is simply grand.

## GRAFTERS EXPOSED

### Oliver Offered a \$1,200 Job to Withdraw From the Senatorial Race.

In the still hours of night, after honest people had retired for the night, one Childs, Swift & Company's agent, wended his way to the quiet home of J. W. Oliver and finding the Rev. J. W. Oliver away from home, proceeded to make the cause of his visit known to Mrs. Oliver. This representative of the Beef Trust very cautiously informed Mrs. Oliver that he had been sent to see Mr. Oliver relative to the Senatorial race in which he felt much interest; that he had at his disposal an office worth \$1000 a year, and that if Mr. Oliver would quit the race in the interest of Conn Linn that the office would be his; that he was very anxious to see Mr. Oliver at once and arrange with him. Mrs. Oliver was disgusted with the manner of this man Childs' familiarity, never having met him before, and she being at home with her little children, and the hour being late, Mrs. Oliver is of opinion that another man accompanied Childs, but who preferred to conceal his identity. Mrs. Oliver is of opinion that another man accompanied Childs, but who preferred to conceal his identity. Mrs. Oliver very properly refused to allow the man to enter her home and informed Mr. Childs that Mr. Oliver was not open to offers of bribery and that she did not appreciate the visit of political grafters and especially so at such late hours.

The above is about the story as related to me by Mrs. Oliver, and even next morning she seemed very much excited over the familiar manner and late visit of this man Childs, who travels this territory for Swift & Company, one of the largest steel trust concerns in the country.

He is also a graduate of the academic department of Stetson University, Florida, as well as the high school here.

## HENRY HAMMONDS

Former Marion Boy Killed at Columbus, Ohio—Body Buried at Evansville.

Saturday, at Columbus, Ohio, Henry Hammond, a native boy of this city, was killed by a live wire while in the employ of the gas and electric light company.

Henry Hammond was well known here and learned the profession he followed while working on the local telephone exchange when being installed under the management of J. T. Alexander, of Madisonville. He was an industrious, energetic young man and well liked by all who knew him. He was the son of G. G. Hammonds, of this city, and besides a wife and child he leaves a mother and several brothers and sisters.

Monday's Evansville Courier had the following to say regarding his death:

"News was received here yesterday of the death at Columbus, O., of Henry Hammond, who until a month ago was employed here as an electrician by the gas and electric light company. The message telling of his death was brief, merely stating that he was fatally injured by taking hold of a live wire."

Mr. Hammond married Miss Susie Scarborough, of this city, less than two years ago. To their union one child has been born. Mrs. Hammond remained here for a short time after her husband left the employ of the gas company and later joined him at Columbus. Mr. Hammond has several relatives living in the city.

The body, accompanied by Mrs. Hammond, left Columbus last night and will reach Evansville some time this morning. It will be met here by a committee from the Elk's Lodge, of which order Mr. Hammond was a prominent member.

Mr. Hammond was popular in the city and had scores of friends who will be surprised to learn of his sudden death.

### WASHINGTON LETTER.

(From our Regular Correspondent.)

Considerable satisfaction is expressed in Washington at the general results of the Ohio convention. In the main, the tariff platform has a hearty endorsement of the administration and its expressions on the subject of rate legislation are particularly gratifying. This platform would have been even more satisfactory had it endorsed the administration's recommendations in favor of tariff readjustment, but it is, as a whole, so satisfactory that there is disposition to criticize its one defect, Secretary Taft's frank statement,

made as chairman of the convention, that the majority in Congress will be compelled to take action with a view to obviating the steady deficit does not agree with that made at St. Louis by Secretary Shaw, recently, when he said, "We are not worried about the deficit," but Mr. Taft's version is the one entertained by the President and a majority of the members of his cabinet. Secretary Taft told the Ohio Convention that Congress would have to restore the war taxes, increase the internal revenue taxes, or so readjust the tariffs as to augment its revenue producing power.

Speaking to a high protection State like Ohio, Secretary Taft doubtless deemed it wise to go no further than to present the alternatives, but there is no doubt, in the minds of those who have discussed the subject recently with Mr. Taft, that he believes the tariff schedules should be readjusted, as do all the members of the Cabinet, except Secretaries Shaw, Wilson and Metcalf, all of whom are inveterate stand patters.

There are strong indications that the tariff readjustment policy will receive considerable help from a new and unexpected source, namely from some of the most influential of the protected interests. Several managers of legitimate beneficiaries of the protective tariff have advised the President that their industries are over-protected. Paradoxical as it may seem, they say that there are too large profits in their respective lines. In elaboration of this statement, however, they make it clear to anyone who takes the trouble to think. They say that with the tariff so high as to prevent the alarming possibility ofordinate profits, new and inexperienced business men are prone to rush into the industry and establish small plants which inevitably come to financial grief in a short time. Were these little fellows allowed to pass through a period of financial stress, ultimately to fail, they would naturally sell their products at reduced prices to secure the much needed "ready cash" and so demoralize the entire market. To avoid this undesirable result, the large producers buy up the smaller and weak competitors and are often compelled to do so at a serious loss, because the little fellows invariably overvalue the plant and stock. Moreover, even at a fair valuation, these additional plants are seldom worth much to the larger concerns which are already provided with all the machinery, etc., that they require. To make these purchases the larger concerns are compelled, as a rule, to issue additional stocks or bonds and these increased liabilities are prejudicial to the interests of the stockholders. Therefore, argues the protected manufacturer, it would be more beneficial were the tariff schedules reduced on a reasonable basis, the overplus of domestic competition curtailed and the market kept steady. It will, of course, be obvious to the reader that this argument is advanced only by the managers of legitimate manufacturing concerns which make their profits out of their business and that such reasoning is obnoxious to all those trusts whose profits are largely comprised of the margins on stock manipulations in Wall street.

The Senate committee on Interstate Commerce has finally adjourned, after taking testimony on the rail way rate question for upwards of thirty days, without action. At the executive session of the committee held after the last hearing, however, it was developed that the committee

### "THE MAN IN GRAY."

### Beautiful Three Color Print.

As its offering of respect to the Confederate Veterans Reunion, the Henderson Route is distributing a beautiful three color print, entitled "The Man in Gray," which is receiving widespread admiration throughout the entire south.

The picture, which is printed from an extra fine etching, reproduced from an original drawing by Mr. Robert M. Hoe, the celebrated artist of the Courier-Journal, is 16x22 inches, and is printed on fine enameled paper, sufficiently heavy for use unframed, but equally suitable for framing.

It is executed in the three cardinal colors of the confederacy—gray, blue and red—on a white background, and has been rightly termed "a gem."

They are enclosed in strawboard mailing tubes for safe transmission by mail, thus avoiding any possibility of breakage and insuring safe delivery.

Sold five red stamps to E. J. Irwin, Louisville, Ky., for this beautiful reproduction, and after you receive it, whether you are from the north or out of the south, you will be an enthusiastic admirer of the "Hero of the Gray."

### INDIGESTION'S RECORD

The best remedy I can prescribe for you is digestion, madam, is Green's August Flower. It is known of several other physicians who prescribe it regularly."

Indigestion is making an awful record as a cause of sudden death. It is beating heart failure in its ghastly harvest. You read in the papers daily of apparently healthy and even robust men being suddenly attacked with acute indigestion after enjoying a hearty meal, and of their dying in many cases before a physician could be called in.

This should be a warning to you who suffer with regular or periodical attacks of indigestion. If these unfortunate victims of acute indigestion had taken a small dose of Green's August Flower before or after their meals they would not have fallen a prey to such sudden senility. August Flower prevents indigestion by creating good digestion. It also regulates the liver, purifies the blood and tones up the entire system in a natural way.

Two sizes, 3¢ and 75¢. All druggists.

The books of the Home Law School Series are designed especially for young men. Never before has a complete collection in one of the best and most practical of the volumes been brought within the reach of every young man. It was a lawyer. It was a man who had great faith in the powers of the law. And the law is a great teacher.

It possesses all the qualities of a set of books which will stimulate every young man to "push forward" and bring out the best that is in him, attaining a higher and more honored station in life than he could hope to attain without them.

The Lawyer of today is the right hand to every great business undertaking. In politics and statesmanship the lawyer stands pre-eminent. He is credited with judgment and discretion, and his advice controls to all important matters. Every commercial enterprise of any importance has its skilled legal adviser. There is a great demand for young men with knowledge of law. Any man can

# SCHOOL TRUSTEES

## LITTLE ADVICE ON A TIMELY SUBJECT

should Avoid Teacher Who Says "The Old Man" and Can "Elocute."

The following advice to school trustees is taken from the Living-  
on Democrat:

The time is now here for school trustees to begin to cast about for  
achers for the fall schools and the  
affable pedagogue is abroad in  
land, "heating the bushes," shaking  
hands and spouting forth vol-  
umes of his pent up knowledge, try-  
ing to impress the stupid [?], trust-  
ing with the wonder of how "one  
all head" can contain all that he  
knows. And as school teachers are  
but human beings, we would like to  
give a few words of advice to trustees  
about the character of teachers  
they employ, viz.: Never employ a  
young man that uses profane lan-  
guage, drinks whisky or smokes cigar-  
ettes. Never employ a young man  
that is too lazy to engage in some  
of honest labor during vacation.  
Never employ a young man  
that wears a dirty skirt or col-  
or that goes about with dirty  
well cars. Never employ a  
young lady that is too lazy to clean  
her room and make up her bed.  
Never employ a young lady that  
is too poor to buy a ten cent novel at the moon.

Teaching school means more than  
long hours and drawing pay  
the country's future citizenship  
rests in a large measure upon  
work of the present day school  
teacher. Therefore let us advise  
to look out for real teachers,  
as educating children is some-  
thing more than cramming their  
full of things found in text-

## IS THE TIME FOR HYOMEI?

Easier to Cure Catarrh  
Now Than at Any Other  
Season.

It is the time to use Hyomei,  
the early summer days make  
easy to cure catarrhal troubles.  
Hyomei treatment, breathed for  
minutes three for four times  
in May or June, will do good  
as quickly as it did in January,  
nearly every one knows that  
faithfully then, it completely  
cures the system of catarrh.

Hyomei is a purely vegetable  
extraction whose active curative  
properties are given off when it is  
held by the aid of the pocket  
or that comes with every outfit.  
It destroys all germ life in the air  
it purifies the blood by sup-  
plying additional ozone, and its  
healing, antiseptic fragrance  
over every corner of the respira-  
tory tract no medicine taken  
through the stomach can possibly

be complete. Hyomei outfit costs  
one dollar, and consists of a  
small inhaler that can be carried in  
purse or vest pocket and will  
last a life time, a medicine dropper,  
a bottle of Hyomei. Extra bot-  
le of Hyomei can be procured  
for fifty cents.

This season of the year when

catarrhal troubles can be so quickly  
and readily cured, the merits of the  
Hyomei treatment should be care-  
fully investigated by every one and  
a complete outfit should be in every  
home. R. F. Haynes gives his per-  
sonal guarantee with every Hyomei  
outfit he sells to refund the money  
if it does not give satisfaction.  
There is no risk whatever to the  
purchaser of Hyomei.

### Throttling the Schools.

The schools of Breathitt county  
are the prey of the machine that  
dominates that unfortunate region.  
Henry H. Noble, superintendent  
of schools for Breathitt, incurred the  
displeasure of Czar Jim Hargis.  
Hargis wants for school superinten-  
dent of Breathitt a man whom he  
can use for the exploitation of the  
county's school system to the bene-  
fit of the Hargis gang and its com-  
plex interests. Noble, not answer-  
ing the purpose, Hargis has deter-  
mined to oust that individual from the  
office to which the people elected  
him. He won't permit Noble to re-  
new his bond. He refuses to set a  
day for receiving the superinten-  
dent's bond, and is, Noble charges,  
using all his influence to prevent  
people from going on the bond.  
Much wrong has been already done  
schools and teachers this season by  
this latest Hargistic act of despera-  
tion. The May examination of teach-  
ers in Breathitt has not been held  
and cannot be told because Noble  
has not been able to execute his  
bond. State Superintendent Nequa  
has given Noble till June 1 to renew  
his bond. If he fails to do so by  
that time the state superintendent  
promises a thorough investigation  
into the whole matter.

Embittered by his recent practical  
acquittal at Lexington, Hargis  
will likely prevent in one or in sever-  
eral ways, the execution of Noble's  
bond by June 1. Hargis does not  
fear a state investigation. The  
Frankfort machine is friendly to the  
Breathitt boos. Then he can get  
testimony of any and every kind  
needed by the car load. Noble  
won't simply be in it in any state in-  
vestigation. Hargis wants the  
schools throttled forever in his own  
interest. He has them now by the  
neck. He will hold them if he can  
and we see nothing in sight to re-  
lieve the thousands of unfortunate  
children in Breathitt from a control  
so odious and deleterious.—Louis-  
ville Herald.

### POLITICS

—There are other "ticks" besides  
politics.—"She was bred in old Kentuc-  
ky," so was politics.—Politics have at last come to a  
profession.—Promise and performance in  
politics are as far apart as the east  
and west.

It stands thus. Promise any-  
thing to get votes, perform anything  
to get the dough.

—But there's another element in  
Kentucky politics, and that is vote  
counting. This wonderful innovation  
is the chief halo that rests  
about William Goebel's head.

—A Democrat can shake the bal-  
lot box to perfection and then if that  
is not sufficient counting does the  
rest.

—Jo C. S. Blackburn has a vast  
vocabulary with which to say loving  
things about his Democratic breth-  
ren.

—To read one of his philippic one  
is led to believe that there is as  
much harmony in Democratic ranks  
as there is in the land where no  
snow falls.

—But Blackburn hopes to ride to  
the senate upon the crest of the  
wave his own popularity dashes  
against the shores of the Beckham  
machine.

—But, boat ahoy! there are break-  
ers ahead, and Painter, who man-  
ages the life boat, has a heart that knows  
no political pity.

—But now wouldn't Ollie James  
make the governorship of Kentucky  
look small to Hager.

—But the lion in the way is that  
wonderful machine. So, there!

—So, here's about how things  
stand. If he's a Democrat and guilty  
of sailing—e. g., Hargis. If he is  
a Republican and innocent, storm  
tossed and wrecked—e. g., Powers.

—Few men have the will power to  
remain good if they remain in polit-  
ics. There is that about politics on  
the men who make politics what  
they are—which contaminates, how-  
ever much we may wish it may be  
different.

### GENERAL

### INSTRUCTIONS

#### For Electric Wiring By Na- tional Board of Fire Un- derwriters.

In all electric work, conductors,  
however well insulated, should al-  
ways be treated as bare, to the end  
that under no considerations, exist-  
ing or likely to exist, can a ground  
or short circuit occur, and so that all  
leakage from conductor to conductor,  
or between conductor and ground, may be reduced to the min-  
imum.

In all wiring special attention  
must be paid to the mechanical ex-  
ecution of the work. Careful and  
neat running, connecting, soldering,  
taping of conductors, and securing  
and attaching of fittings, are especially  
conducive to security and effi-  
ciency, and will be strongly insisted  
on.

In laying out an installation, ex-  
cept for constant current systems,  
every reasonable effort should be  
made to secure distribution centers  
located in easily accessible places,  
at which points the cutouts and  
switches controlling the several  
branch circuits can be grouped for  
convenience and safety of operation.  
The load should be divided as even-  
ly as possible among the branches  
and all complicated and unnecessary  
wiring avoided.

The use of wire ways for render-  
ing concealed wiring permanently  
accessible is most heartily endorsed  
and recommended, and this method  
of accessible concealed construction  
is advised for general use.

Architects are urged, when draw-  
ing plans and specifications, to make  
provision for the channelling and  
pocketing of buildings for electric  
light or power wires.

### Dr. Caldwell's Syrup Pepsin

Mrs. Mary O. Doh, No. 222 Michigan Ave., Chicago, Ill., writes: "For a year I have been  
troubled with pimples caused by insect bites,  
which were very painful. I applied Dr. Caldwell's  
pepsi to my back and a sore, crusty, scaly  
area was soon healed. Since then I have had  
no trouble with insect bites. I also apply it to  
my face and other parts of my body. It  
cures acne and other minor maladies, but my  
complexion became more yellow and my general  
health suffered. I then stopped using it. I am  
now using it again and my complexion is  
brighter and more uniform. One bottle did more  
good than a dozen. I have since had the same  
trouble for several weeks, when I resorted  
again to Dr. Caldwell's Syrup Pepsin. I now  
use it as a daily cure and feel its beneficial  
effects, thanks to your remedy."

## My Own Story

By

## Caleb Powers

This book is a calm, dispassionate account, from the standpoint of the man  
most interested, of the conditions in Kentucky leading to the assassination  
of William Goebel, and of Powers' indictment and conviction on the charge  
of complicity in his murder.

It covers his youth in the mountains of Kentucky, the conventions of  
1899, the election, the shooting of Goebel, the arrest, the three trials and  
the prison life.

For dramatic situations, human interest and political importance, the  
case of Caleb Powers is unequalled.

### OUR FRIENDS.

The publishers of the Record wish to acknowledge receipt of the Houston, Texas, Daily News sent us by S. H. Walker, and the souvenir edition of the Harrison Times, published at Harrison, Arkansas, which was sent us by R. M. Fritts, of Zinc, Arkansas. We always appreciate the spirit of our friends in distant states that prompt them to remember us in this manner.

### STILL CRAFTING.

We republish in this issue an article which appeared in last week's issue of the Lyon County Times. If the claims made by the Times are true Dr. Milton Board, superintendent of the Western Kentucky Asylum for the Insane, at Hopkinsville, has offered a few suggestions in the senatorial race in the sixth district. It will be remembered that Dr. Board advised the asylum commissioners to present a couple of choice heifers to Senator Richardson out of a magnificent herd belonging to the state, and that he is the same man who boasted of the fact in published statement that the presents were tendered on his advice and was indicted in Christian county in Judge Cook's court together with the asylum commissioners for misappropriating state property, but whose indictment was dismissed by the commonwealth attorney in that district on the ground that the superintendent is not custodian of the institution's property, that resting with the commissioners. The claim that the commissioners acted on his advice was a bold one to be made by Board, but he was sure of his standing with the state administration as was evidenced by the dismissals of the indictments against the commissioners. So it seems that Dr. Board's advice is all right under the present state administration, and perhaps the candidates and politicians in the sixth senatorial district would better heed him when he sees fit to butt in.

### Good Roads Convention.

Reference was made last week to a meeting of the Commercial Club at which the subject of good county roads was the chief topic under discussion.

On motion and resolution by the Club, it was decided to hold a Good Roads Convention at Marion, Saturday, June 24, and to invite the road overseers throughout the county to attend. A barbecue dinner will be provided at the expense of the Club, and entertaining and instructive addresses will be delivered.

Chairman Dodge, of the National Association for the improvement of county roads, will be invited to attend, and a general educational that would stimulate the farmers' movement will be inaugurated, as well as plans for the betterment of three months and have subjects our system of road working.

Mr. Clem S. Nunu, chairman of the county development and Good Roads Committee, has the matter in charge, and, with a strong and able committee to aid him, much can be accomplished this year, notwithstanding the set back in the work occasioned by the recent fire.

It was decided at the meeting of the Commercial Club referred to to offer medals to road supervisors for the best improvement shown in three sections of road in Crittenden county, all conditions being equalized as far as possible, and the awards to be made by a competent and impartial committee. Three medals will be given, gold, silver and bronze, and will be well worthy of exciting keen competition.

No improvement is of greater or more lasting benefit to a county or community than good roads. Any farm in the county can be enhanced to double value by improved road conditions, affording a means of marketing the products the year round. One team can be made to do the service of two by the same means.

"The Czar wept."

Judging from the Russian admiral's name, Nebogatoff, we are not surprised that Admiral Togo demolished his fleet.

"The old hero who has made the Marion school known throughout the state has been called to a western field."—Webster County Times

In the great naval battle fought Saturday and Sunday in the Straits of Korea the Japanese obtained a complete and overwhelming victory. Late advices show that Rojestvensky's fleet, composed of all his most effective and powerful ships, was completely shattered. According to the latest information two Russian battleships, one coast defense armored, five cruisers, two special service ships and three destroyers were sunk, and there were captured two battleships, two coast defense armored and one special service ship.

Rojestvensky's flagship escaped, badly damaged, and with other vessels of his broken fleet is being pursued by the victorious Japanese. Rear Admiral Nebogatoff, however, was captured, with 3,000 other prisoners. It seems probable that in their crippled condition other Russian vessels will fall into the hands of the Japanese before they can reach Vladivostok. While Loudon rumors say that several Japanese vessels were lost, Admiral Togo officially reports that his squadron was not damaged.

A number of Russian vessels still remain near Shanghai, but it is evident that as a fighting force the great fleet has been destroyed.

No details of the battle have yet been permitted to pass the Japanese censor, but Tokio dispatches make it clear that Admiral Togo is pressing his advantage and harassing the Russian vessels, which are attempting to take refuge at Vladivostok, and make more complete his already sweeping victory.

### Not Behind Other Counties.

Editor Record—I noticed an editorial in your paper of last week in which you say the farmers of Crittenden county should organize an institute similar to the Livingston county organization. I, for one, agree with you. I had the pleasure of attending the Livingston County Farmers' Club meeting held at Salem May 18, and I heard read the papers which had been prepared on the different subjects and the discussion of same, and I was very much pleased with the results of the meeting.

I think the farmers of Crittenden county should organize in the near future and not be behind all the other counties in the State. In nearly every issue of the Farmers' Home Journal we have a supplement containing the papers read and speeches made at a farmers' institute in some county in the State,

and I think I gain a great deal of information by reading them. It seems to me that there is nothing more than to have a meeting every month and have subjects assigned different members for discussion. By so doing we may gather the ideas of others and compare them with our own, and it seems to me we might profit thereby. It would cost us nothing but a little time, and it could be so well spent that at the end of the year we would be better off. So let's organize a farmers' institute in Crittenden county and see how much we can be worth to each other by it.

Mr. Editor, I am glad you expressed a willingness for a free and open discussion of this subject in your paper. So, brother farmer, if you favor an institute, speak out, or if you oppose it, let's have your objection.

As to the joint fair proposed, if carried out on the principles as suggested I think it would be a good thing. It is, I understand, for the advancement of our agricultural and horticultural interests, and I don't see any reason why it should be anything else, for it will be whatever the people make it, and we can make it a success. "Will we?" is the only question, but I guess I had better stop right here until I hear from someone else. Hoping this will look better in print than it does in my handwriting, I beg to remain

Yours truly,  
J. FRANK CONGER

### Court House Question.

Editor Record—I notice you have offered the public an opportunity to express themselves through your columns as to needed suggestions for improvements of the county. I will just call attention to our court house. I think the people would like to see the proper authorities repair our court house and paint it rather than build a new seventy thousand dollar one. Oil brick looks as well painted as new brick if properly done.

However, the bonds for seventy thousand dollars might look better to a few people, especially to those who are able to own them, and those who are afraid to go into the old court house, but the tax payers would rather see the old one nicely repaired which is much needed. I don't think there is much danger in going into the old court house yet.

MAJOR CLEMENT

### Mrs. Mack White Dead.

Mack White's wife died at her home on East Belleville street Tuesday afternoon, of inflammation of the liver, after an illness of ten days.

She was the daughter of Newton and Martha Newcome, of the county. She was first married to Wm. L. White, after whose death she married Mr. White. She professed religion at Mt. Zion and joined the Methodist church. Mrs. White leaves her husband and two children, one of whom is now laying at death's door with erysipelas. She was a good Christian woman and faithful in all her relations.

The funeral sermon was preached by Rev. J. H. McAfee, and the interment took place at the Mt. Zion cemetery.

### State Normals.

Kentucky is one of the few progressive states without normal schools, and the teachers of the state are preparing to launch a plan to secure for the state three normal schools under the control and management of the state.

At the state teachers meeting to be held at the 21st and 22nd of next month at Madison City, the campaign will be started and the bill will be introduced.

## KENTUCKY CROPS

### HESSIAN FLY AND RUST DAMAGE WHEAT.

Tobacco Is Doing Well Except Where Attacked by Cutworms.

The weekly summary of crop conditions, issued by the Kentucky weather bureau, is as follows:

The first part of the past week was cool, the latter part quite warm. Good rains occurred during the week, being heavy in some sections the 25th, especially in the western portions, where considerable flooding of the lowlands was again caused. On the whole, the week was favorable for germination, growth, development and cultivation of crops.

Wheat is heading out and filling well in most parts of the state, and the reports continue most favorable; but there is considerable complaint of its falling back in the western part of the state, where there is a great deal of damage from rust and the Hessian fly.

The planting of corn made rapid progress during the week, and in a great many localities the crop is all in; also there was good work done in cultivating the early planted, which has come up well and has a fine stand. Complaint of damage from cutworms continue, though not so numerous as before.

Rapid strides were being made in setting out tobacco plants, conditions being very favorable, and the larger portion of the crop has been transplanted and is doing well except where attacked by cutworms.

Plants are mostly plentiful, though reports of scarcity come from some of the middle western countries. There is a splendid prospect for oats; clover is good; pastures likewise; oats excellent; prairie and hemp good. Cornfields are doing finely, and the berry crops large and promising. The fruit prospect continues good, though apples and peaches are dropping heavily. Peaches will probably be a half crop. Grapes are unusually promising.

### Died From Heart Failure.

Mrs. Jane Bugg, the widow of Ex-Hay Bugg of Crittenden county died with heart failure at her home in the Piney Fork neighborhood Sunday May 26, age 76.

Her husband who served as magistrate in this county for several years died eleven years ago. The deceased was survived by two children among whom are Postmaster Grant Bugg and Assistant Postmaster Tom Bugg of Frederica. Mrs. Bugg was an estimable lady and a faithful member of Piney Fork church and loved by all who knew her.

## HOW TO WRITE A BUSINESS LETTER

By Sherwin Cody, Author of  
"The Art of Writing English," Etc.

### INTRODUCTORY.

The writing of business letters is apparently a simple matter, for millions of people are writing them every day. In certain lines of business, however, highly skilled correspondents are sought, and secured by high salaries. More skilled correspondents would be employed if they were to be found, or if business men realized how much business a poor correspondent can turn away. Business letter writing can be learned as certainly as stenography or any recognized business calling, and without doubt the strictly professional letter writer would be paid according to his ability.

First of all, a business letter should be strictly grammatical. Many business letters are not so, but even the illiterate would soon perceive the difference, and without knowing why, would prefer the business man who seemed by his letters to be master of what he professed.

The simple graces of rhetoric and a trained style would also prove useful, in spite of the limited range which business letter writing seems to have. Every letter writer often feels that he would like a freer use of words. This is nothing more or less than the ability which results from cultivating style according to the principles laid down by Franklin.

### IN THIS WRITING THE CONSTITUTION OF THE LETTER.

But full knowledge of word grammar, and the principles of composition will not alone make a good business letter writer. The method of composition has features peculiar to itself. The principles which govern it may be stated briefly as follows:

I. Know the man to whom you write. No man can write a good business letter unless he understands the person to whom he is writing from top to toe. In most cases he has never seen the person.

If he is replying to a letter before him, he can form some idea of the writer from the character of the letter, including the handwriting, if the letter is written by the person who composed it. For the rest, he must judge the person from his general knowledge of the class to which he most probably belongs. In any case the character of the person to whom the letter is sent, wholly determines the form of the letter, and even what is to be said. Knowledge of the reader is the first requirement of all composition, and it will be well for the writers of fiction, and all other writers, if they realize it.

2. Never write a longer letter than will be read. It goes without saying that, unless a letter is going to be read, it is not worth writing. Country people usually have plenty of time, and like to read long letters, but city men and women have no time to read long letters, and simply will not do it. It is folly to write a longer letter than the recipient will read, however important the topic or extensive the subject. If much is to be said and it is important that each point should receive due consideration, a separate letter should be written to cover each important item.

3. How to condense. All letters are necessarily severely limited in length, and the most important principle of composition for letter writers to master is condensation. This may be secured positively and negatively, in various ways, as follows:

a. By omitting all details that the recipient of the letter may reasonably be supposed to know already.

b. By suggesting and implying in the choice of words and forms of the sentence as much as possible.

c. By stating important matters so forcibly that the reader will be forced (or rather induced) to think out the unspoken details for himself. This is the hardest of all to do.

### TWO CLASSES OF LETTERS

There are two general classes of business letters, those which give information asked for, and those intended to induce people to buy goods. Usually in replying to specific inquiries there will be an excellent opportunity to throw in a word of persuasion.

1. Replies to questions. In replying to the letters asking for information, a full statement of all the facts is highly desirable. If a person has asked a question he will be interested to read the reply all through. The general tendency of business men is to shorten such letters unduly. As a rule, such letters should be rather long. It is a mark of courtesy which is appreciated, and the business man never knows when his reputation for courtesy will bring him a big order, or when his reputation for crudeness or the indifference which brevity indicates will send a highly profitable order to some other firm. Moreover, the man of sound business principles will give as much attention to small inquiries and small orders as to large ones, for there is no telling when the small buyer will become the large buyer, to say nothing of the fact that most fortunes have been made through large numbers of small sales.

2. Circular letters. On the other hand, letters which are designed to stimulate business or secure orders, that is, which are more or less advertising circulars, are very likely to be too long, and so they are not read until they are put in the waste basket. The fault is almost universal, and it is notoriously fatal. The seller is full of his subject, full of arguments. He could talk for an hour, two hours, all day. It is therefore very hard for him to confine himself to a few words judiciously spoken.

Note—Any who wish to go more deeply into this subject may write to Mr. Cody, who will be glad to advise in regard to books and manuscripts. Address Opera House, 11th and Dearborn, Chicago.

## LOLA.

There will be a basket dinner at the church here the second Sunday in June, it being children's day. A lengthy program has been prepared for the occasion, everybody is invited to attend.

The Marion Zinc Co. began work at the Mann's property Wednesday of last week, that company being employed by Mr. Mann to work the mine.

We understand the people of Marion are preparing to rebuild the church that recently burned there.

Several of our people attended the fast-walking service at Pleasant Hill. They report a large attendance.

We see in a recent issue of the Crittenden Press that their Hampton correspondent stated that the Hampton baseball team played Leon, Joy and Good Hope boys and the score stood 14 to 1 in favor of the Hampton boys. Now, brother, you surely have optical illusions or night dreams, as the La La boys have never played the Hampton boys.

Let us play some time in the future and then give the score of the game.

The women's prayer meeting was held at the church Thursday afternoon of last week. Rev. Milton Wright preached for them.

The farmers are late planting their corn on account of the wet weather.

Yulee Balchiff, who recently quit work at the Galena mines is working at the Mann mines.

We are glad to report that W. T. Flaherty is home better at this writing. He has been confined to his bed for six weeks.

Mrs. Madge Davidson, Master Truman and Miss Lucy Carter, all of Lewis, were visiting near here Saturday and Sunday.

The Sunday school here is still growing in interest and attendance. W. L. Kennedy, our superintendent, takes great pains in the work.

R. M. Lewis and family, of Golconda, Ill., are visiting Mrs. Lewis' parents Mr. and Mrs. B. S. Kennedy.

Frank Singleton and Miss Ora Taber were married at the residence of J. T. Slayden last Sunday night. Esquire J. D. Foley officiating.

June 14-16, 1905

Which, it is anticipated, will attract a hundred thousand visitors from all parts of the country, but especially from the new and bustling South and Southwest.

Rates of approximately two cents a mile for the round trip will be in effect from most all points in the United States on account of the Reunion, and Kentucky is prepared to entertain royally her honored guests at that time.

It may not be amiss to remark that the "Man in Gray" will hold the center of the limelight during this period, and he is justly entitled to this honor, but the favorable rate will also attract a horde of sight-seers and pleasure-seekers and investors to Louisville, the town that ships more coal freight than any two other cities in the South. This freight mention is merely incidental and to acquaint you with the importance and magnitude of our business interests.

### The Purpose of this Article

Is more to interest you in Kentucky's most popular railroad, the Louisville and Nashville—commonly known as the "Blue Grass Line"—as a common carrier of freight, although we appreciate, and will continue to do, the freight that moves our way.

Our passenger service between St. Louis, Evansville and Louisville compares favorably with any other, and the faster we travel, we feel satisfied, is more proper—that is, invariably on time, feature which, you will agree with us, is a very important factor.

Our equipment, consisting of Redning Chair Cars, Santa Fe, Pullman Drawing room Sleepers, Vestibule High Back Seat Cars and Parlor Cars through without change, is as fine and comfortable as any operating in front of Kentucky—bar none, and we earnestly invite your patronage.

In purchasing your ticket to Louisville for the Confederate Reunion, or on any trip which takes you between St. Louis, Evansville and Louisville, declare the Louisville Route in each instance on your ticket reading our way.

### "The Man in Gray"

Send five stamps and money for a copy of picture entitled "The Man in Gray," a beautiful reproduction from an original drawing by Mr. Robert H. Cole, celebrated artist of the Louisville Courier Journal, executed in the three cardinal colors of the Confederacy—red, blue and gray—in a white background. Picture is 10x22 inches, and is printed on the enameled paper sufficiently heavy for use unframed, but equally suitable for framing.

They will be enclosed in strawboard mailing card for safe transmission by mail, thus avoiding any possibility of breakage and insuring safe delivery.

### Descriptive Booklet

We are also distributing a small but complete booklet descriptive of Louisville hotels, restaurants and boarding houses, showing their capacity, rates, etc., which will be of interest to anyone contemplating a trip to Louisville this summer and which we will gladly mail on request without expense to you.

## SPLENDID WELCOME

FOR MEN WHO WEAR CRAY

Createst Reunion in History Is Promised By Louisville People.

Louisville is making preparations for the coming reunion of Confederate veterans which will be held there June 11th.

Nothing will be left out tending to the comfort and welfare of the "boys in gray," and they will be allowed to spend no money in the city.

Mayor Granger has given the city in perfect condition, and has decreed that it shall be decorated as never before in its history.

Electric light streets will be all over the city and street cars will be suspended.

Richard Brown, of Princeton, has been visiting relatives here this week.

Mr. and Mrs. Jose Harper started to Lewistown Saturday evening to visit relatives.

### FORTIETH MEETING

The 40th Convention of the Kentucky Sunday School Association meets at Somerset, June 7th, 8th and 9th next. Every county should be represented. Three of the chiefest workers of America besides the greatest speakers of our own state will be on the program.

The people of Somerset are as hospitable a people as can be found in the State, but naturally their capacity to entertain is limited, and in order that no one may be shut out who desires to go, our State Executive Committee will provide entertainment at hotels and boarding houses for all over the number the people can entertain in their homes. It is therefore necessary necessary for the State Committee to charge each delegate asking for entertainment \$10. This is a small amount and no delegate should consider it a hardship to pay it. It should not be needed for entertainment it will go into the state treasury.

A special train will leave Louisville at 10 a.m. June 7, and arrive at Somerset at 1 p.m.

There will be a session of the convention every hour during the regular way of entertainment for 10 days, except while they are at the meetings.

Of course there is no desire to anything to distract attention from the regular proceedings of the convention, but these pleasure recreations will be provided and be at the disposal of the visitors.

There will be a session of the convention every hour during the regular way of entertainment for 10 days, except while they are at the meetings.

There will be open with myself entertainment and the band will play full blast. In addition there will be dancing and other amusements.

There will be a series of five parks, where nature has provided the most beautiful scenes in the State.

These are Formula, Shawnee, Cheekee, Jacobs and Central parks. They will be open to the various forms of entertainment found at such resorts.

The five theaters of the city all have attractions during the 10 days. Several four deck steamers from Cincinnati have been chartered.

These are the Louisville, and will be used as pleasure boats, land excursions to various points of interest in and around Louisville will also be arranged.

And all of this will be free to visiting Confederate veterans. Just as the gray they wear in their period of nobility, so will the official recognition badge be passport and open the door to everything within the city of Louisville.
